

Group Mobility in Valga, Estonia

With great satisfaction, the first group mobility under the Accreditation to the Erasmus+ Program is taking place in Valga (Estonia) from the 26th to the 30th of April.

Two students of the **3DS** class are joining their peers from Estonia, Norway, Turkey, Czech Republic and Cyprus to enjoy a **STEM competition** along the whole week. A wide variety of tasks and activities have been planned by the partner schools and are organized by the hosting school, the Vocational Training Center of Valga.

The students are accompanied by the Principal dr. Laura Zoller.

After the outbreak of COVID-19 pandemic, this is the first activity organized by the school taking place abroad with the participation of students.

We all wish that it can be a new start for European mobility and intercultural experiences!

Time	Activity	Room/place
